Bio-Sol Balanced Salt Solution (Sterile Irrigating Solution) is an isotonic solution used for irrigation during ophthalmic procedures. This also helps in maintaining both the anatomic and physiologic integrity of intraocular tissues.

Each mL contains

Sodium Chloride IP	0.490% w/v
Potassium Chloride IP	0.075% w/v
Calcium Chloride IP	0.048% w/v
Magnesium Chloride IP	0.030% w/v
Sodium Acetate IP	0.390% w/v
Sodium Citrate IP	0.170% w/v
Water for Injections IP	q.s.

INDICATIONS AND USAGE

For use as an extra-ocular and intraocular irrigating solution during ocular surgical procedure involving perfusion of the eye with an expected maximum duration of less than 60 minutes.

WARNINGS

- For Ophthalmic Irrigation Only.
- Not for Injection or Intravenous infusion.
- For single use only.
- Do not use the product in more than one patient.
- Discard unused product.
- Do not add any drug/additives to the product.
- Even invisible damage to the container during transit, storage or handling may result in contamination.
- Do not use, if the container is found leaking upon squeezing or if the solution is not clear.
- Solution containing visible solid particles must not be used.

PRECAUTIONS

- Open under aseptic conditions only.

ADVERSE REACTIONS

- Irrigation or any other trauma to the corneal endothelium may result in corneal swelling or bullous keratopathy.
- Post-operative inflammatory reactions as well as incidents of corneal edema and corneal de-compensation have been reported.

PACKING

500 mL in plastic bottle

STORAGE CONDITIONS

- Store at 20° to 25°C (68° to 77°F)
- Protect from light
- Do not freeze

DOSAGE AND ADMINISTRATION

This irrigating solution should be used according to standard format for each surgical procedure.
